

FreeSWITCH 1.6.18 release notes

Today we are excited to announce the release of 1.6.18! This was a routine release, but you can find some wonderful new features including improvements to mod_av's handling of core file parameters, some quality tweaks to vpx, and update to the WebRTC code to match the latest specifications, and an update of mod_lua for the Windows build. These and many other improvements and bug fixes went in this release so be sure to read through the list for the latest information.
