macOS FreeSWITCH™ Obsoleted Releases

FreeSWITCH is no longer tested on the macOS releases below. Apple dropped support and no longer issues security patches, and Homebrew no longer supports them. To install, follow the [manual installation](#) instructions. The [macFI](#) may support some recent obsoleted releases in unsupported mode.

MacOS	FreeSWITCH™ V.R.M*	Final Test	Status	Reason
10.12.6 Sierra	1.10.2 Current Public Release	December 31, 2019	Bad	No longer supported by Apple and Homebrew
