

Provider VoIPstreet (USA)

voipstreet.com

Last Update: 18 June 2008

Inbound:

```
<include>
  <gateway name="chi-in.voipstreet.com">
    <param name="username" value="username"/>
    <param name="password" value="password"/>
    <param name="from-user" value="username"/>
    <param name="proxy" value="chi-in.voipstreet.com"/>
    <param name="expire-seconds" value="600"/>
    <param name="register" value="true"/>
    <param name="retry-seconds" value="30"/>
    <param name="context" value="public"/>
  </gateway>
</include>
```

Outbound:

```
<include>
  <gateway name="chi-out.voipstreet.com">
    <param name="username" value="username"/>
    <param name="password" value="password"/>
    <param name="from-user" value="username"/>
    <param name="proxy" value="chi-out.voipstreet.com"/>
    <param name="expire-seconds" value="600"/>
    <param name="register" value="true"/>
    <param name="retry-seconds" value="30"/>
    <param name="context" value="public"/>
  </gateway>
</include>>
```

01/15/09: I had to add the following to my outbound gateway in order to have CallerID set on outbound calls

```
<param name="caller-id-in-from" value="true"/>
```
