

Docs Sprint 2017.01.13

Come join the FreeSWITCH Documentation Sprint on Friday the 13th of January, 2017 to copy (hopefully) the remaining pages from the old wiki over here to Confluence. Once the last wiki page is copied over, [Ken Rice](#) will happily take a sledgehammer to the old wiki server 📍

If you are not already a member of the Docs Team, let [John Boteler](#) or [Italo Rossi](#) know before the sprint day so that we can add you to the Confluence-editors group and also the wiki page tracker spreadsheet.

Details on the [Wiki Migration](#) page.

Thanks!
